FUNCTION WARRANTY THREE TO SIX YEARS

More than design, quality, and performance, we offer peace of mind. All products in the Strands Lighting Division range are covered by a unique function warranty, valid for 3 to 6 years. The warranty is unique on the market and covers faults related to manufacturing, materials, and assembly. Our goal is to improve service, increase customer satisfaction, and emphasize our brand's quality.

STRANDS LIGHT TEST LAB

At Strands HQ, we have an advanced lighting laboratory where we test all our products before releasing them to the market. We measure output, beam pattern, and performance so you can be sure your new light lives up to your expectations. When you see the graphic illustration of the output in our catalogs, it accurately reflects how the light performs in real life.

SKYLORD

LED BAR

Part No. ST-902000 - ST-902003

- ✓ BUILT-IN RELAY
- ✓ PLUG-AND-PLAY
- ✓ 1 LUX @ 1 KM
- ✓ 30 000 LUMEN

5-YEARS WARRANTY

This is the next generation of LED bars, with an output tailored to provide a new kind of lighting experience. The housing is cast in one piece, securing it against water, corrosion, vibrations, and dirt. Since the housing has no screw holes, it offers superior protection against wear and tear. It's waterproof, IP-rated IP69K, and has a new type of coating. It features double breathers and a solid build, making it especially suited to heavier vehicles. It's covered by Strands' unique 5-year warranty.

NO SCREW HOLES

AMBER AND WHITE
POSITION LIGHT

LED BAR

ONE LED BAR, 2X20 REFERENCE NUMBER

By combining clever design and innovative technology, we have integrated a dual light source into a single LED bar. This means that in the E-approved E-mode (R148/149), the 20"-40" Skylords have a reference number of 2x20. The 10" version has reference number 20. In many European countries, a dual light source is a requirement for road-legal lighting. This solution allows the Skylord LED bar to deliver more actual lumens while remaining approved in E-mode.

LED BAR 10"
Part No. ST-902000

LED BAR 20"

LED BAR 30"
Part No. ST-902002

LED BAR 40"
Part No. ST-902003

E-MODE 1 lx
281m - 781m

XPERIENCE MODE 1 lx
517m - 1090m

Use the QR code to check out the products.

1 LUX @ 1 KM

The new beam pattern provides maximum visibility to both the front and sides. It reaches further than the average combo beam and is broader and stronger closer to the vehicle than ordinary long-distance beams. All Skylord LED bars can be used with the E-approved E-mode or with Xperience mode. The Xperience mode is a powerful boost mode that reaches over 30,000 actual lumens and 1 lux @ 1 km for the 40" model.

HELLO FUNCTION

All Siberia LED bars over 20" have the eye-catching Hello function for the position lights. Just flash your high beam twice within two seconds, and the position lights activate their dynamic Hello to greet your fellow drivers.

PASSION DRIVES

SKYLORD LED BAR

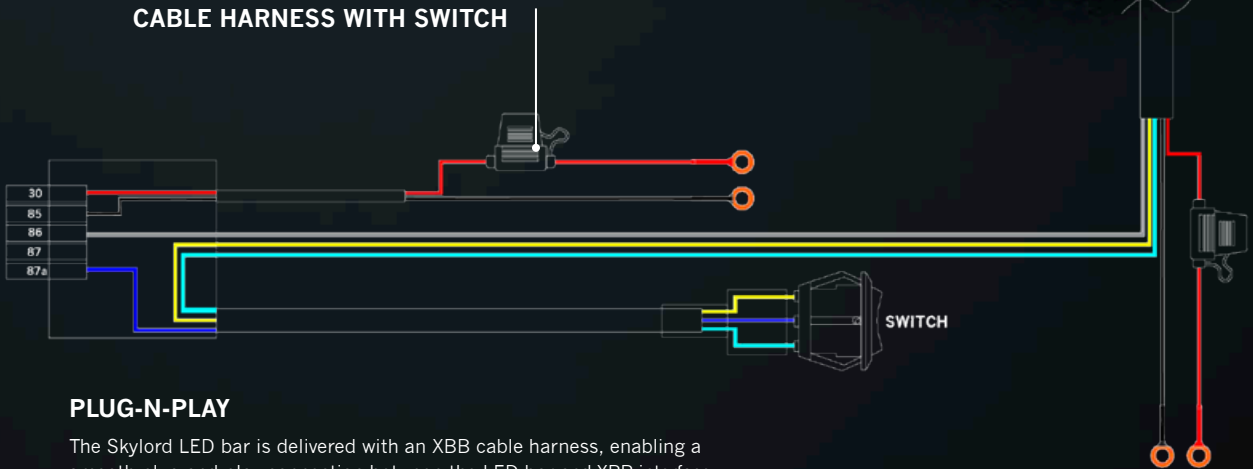

Part No. ST-902000 - ST-902003

EVOLUTION

30 000 LUMEN

CABLE HARNESS WITH SWITCH

PLUG-N-PLAY

The Skylord LED bar is delivered with an XBB cable harness, enabling a smooth plug-and-play connection between the LED bar and XBB interface. The signal cable is already integrated into Output 1, and the position light into Output 2, ensuring fast and accurate setup. It features a pre-mounted switch for the position lights, located in the engine compartment, allowing you to easily switch them on or off with a simple press.

STRANDS PRO

- ✓ DARK INTEGRATED POSITION LIGHT
- ✓ 1 LUX @ +800 METERS

13 400 ACTUAL
LUMENS

AMBER AND WHITE
POSITION LIGHT

1 LUX @ +800 METERS

The Nuuk D-Line driving light has a new beam pattern. Thanks to the light's unique construction, the output is fuller, longer, and broader than that of the average combo or long-distance beam. With 13,400 actual lumens and 1 lux @ +800 meters in Xperience mode, you can be sure to spot any obstacles from far away. Other lights with this kind of range often have a reduced width and power closer to the vehicle, but the Nuuk D-Line does not, making it easier to spot wildlife and other dangers to the side of the road.

NEW DUAL-COLOR POSITION LIGHT

The position light diodes are built into the reflector, dark and invisible when not in use, and emit a deep, vibrant color when on. The reflector produces a mirror-like effect on the position lights, giving a smooth, lively impression.

MADE FOR DURABILITY

From the inner components and material to the finish of the coating, the D-Line driving light is designed to withstand harsh weather and exposure to the elements. It is IP-rated IP69K, giving it supreme protection against dirt and water. The coating is made to withstand the rigors of the road, with salt, ice, dirt, and temperature changes.

FOUR SIMPLE STEPS TO FIND YOUR RRS SOLUTION

WEBSITE

Go to strandseurope.com

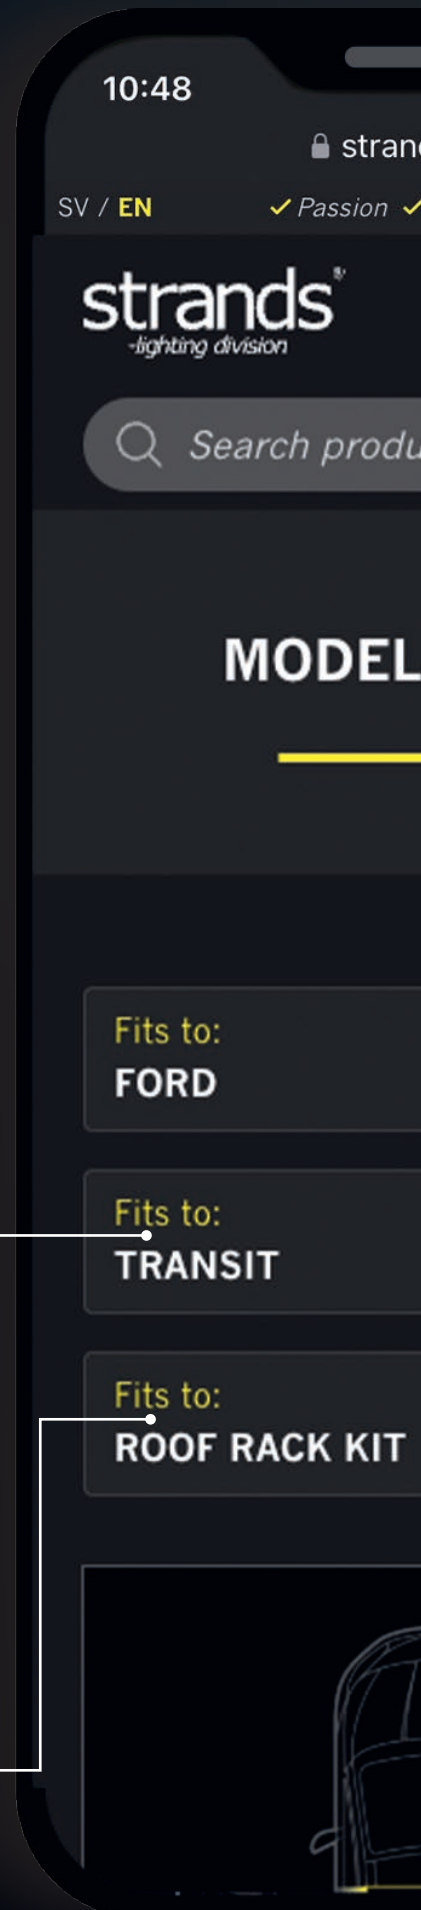

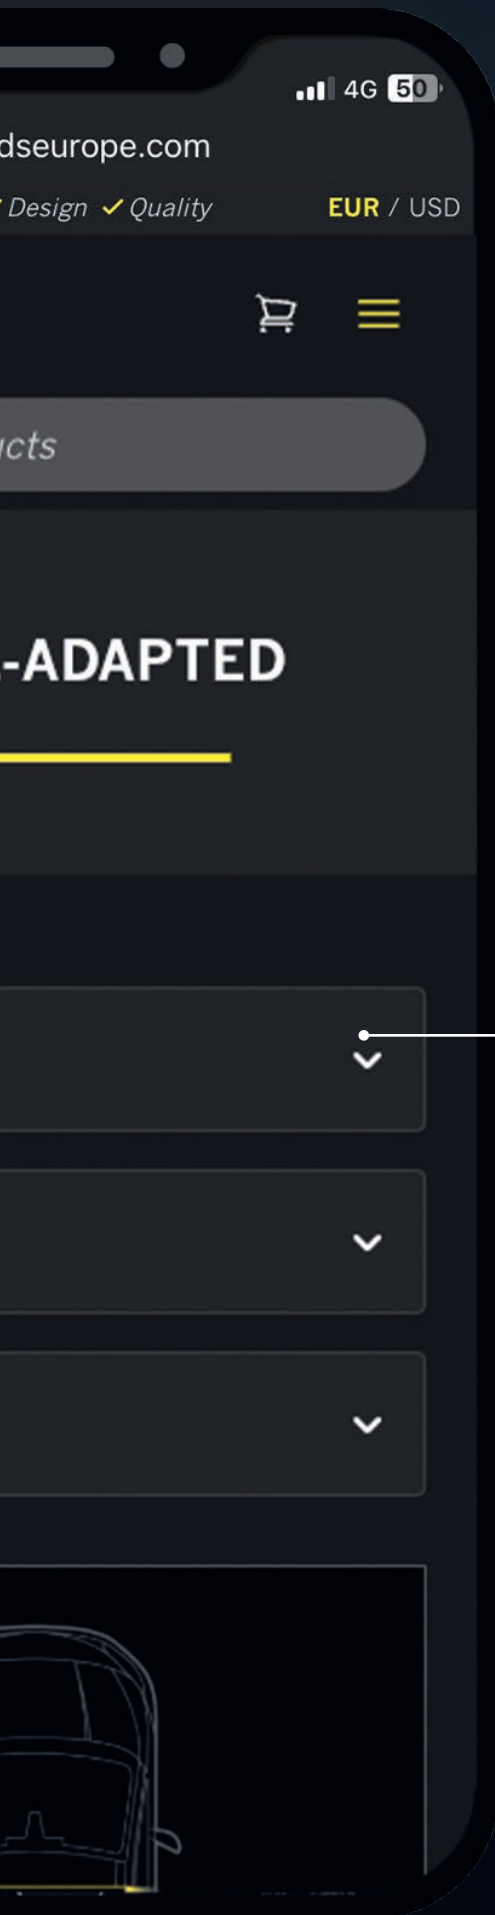

CHOOSE BRAND & MODEL

Choose your brand and your model on your vehicle

TYPE

Choose roof rack system and see all options for your vehicle

CHOOSE BRAND & MODEL

Choose your brand and your model on your vehicle

WHY PROS CHOOSE IT

Safety, efficiency, and adaptability. With the roof rack system professional drivers will get a reliable product that will perform well in any work situation. E-approved, crash-tested, and easy to install: all to keep both driver and cargo safe on the road and in the work place. The C-Rack is installed with plug-and-play and available for a wide range of different LCV models.

Scan the QR-code for tutorial

CRUISE LIGHT C-RACK

- ✓ ADJUSTABLE ROOF RACKS
- ✓ ECE-R65 CLASS 1 & 2
- ✓ EASY INSTALLATION
- ✓ 180° ANGLE

You can have 2 or 4 lamps on the front roof rack, and either two or no end-caps.

You can have 2 or 4 lamps on the rear roof rack, and either two or no end-caps.

WHY IT STANDS OUT

The C-rack has two additions: The FLEX Anchor and the FLEX Load stop. They can be installed by inserting and twisting them into place in the groove along the length of the rack. They can be adjusted without needing to remove the end cover, making your workday smooth and efficient.

The roof rack system will keep you and your cargo safe during long workdays. The FLEX Load stop will keep the cargo secure on the rack by providing stops on the sides.

When working in demanding environment, transport safety is key. The cargo can be transported securely by attaching, e.g., a tensioning belt or strap to the FLEX Anchor.

This system stands out for its versatility and adaptability. Choose the number of end-cap and directional warning lights you need to ensure you are seen from all directions, and use the rack with the FLEX accessories to maximize the available load capacity. The combination of visibility, load capacity, and model-specific fit makes the roof rack system a must-have for any professional.
